We passed major energy reform legislation this year that will help:

- Lower energy costs;
- Move our state toward more independent, clean and efficient ways to generate energy; and
- Create and support businesses and jobs in the clean energy industry.

See the back of this mailer for more information.

For more information about energy savings, visit our Web site at [www.senatedems.ct.gov/Energy](http://www.senatedems.ct.gov/Energy).

Please share or recycle when done.

## Highlights of the energy reform legislation:

- Creates the Clean Energy Finance & Investment Authority to leverage private capital for **clean energy** projects;
- Allows for energy to be purchased through a variety of ways to **help lower rates**;
- Launches programs to provide **incentives for the replacement of residential heating equipment and clean energy installations**, such as solar panels and fuel cells in homes and businesses; and
- Establishes the Office of Energy Efficient Businesses to provide businesses interested in energy-efficient products or renewable energy with a **single point of contact**.

## Other Energy Savings

- The General Assembly also eliminated the surcharge on electric bills, which will **save the average ratepayer as much as \$5 every month**.
- Many of Connecticut's energy consumers have not taken advantage of the increased competition amongst the companies that supply energy. I urge all business owners and homeowners to shop around for **lower electricity rates** by visiting [www.ctenergyinfo.com](http://www.ctenergyinfo.com).
