

YOUR STATE SENATOR **JOHN FONFARA**

Working to Reduce Your Home Heating Costs

Heating our homes is expensive and many of us live with inefficient boilers/furnaces because of the high cost to replace them. After working with my colleagues for the past five years, I am proud to announce that we have successfully passed legislation creating a boiler/furnace replacement program that will not require you to pay a major upfront cost.

How the Boiler/Furnace Replacement Program Works for You:

- Available to all residential property owners that have paid their utility bill for six consecutive months (**no credit check involved**)
- Loan will be paid back as part of your monthly utility bill (electric or gas)
- Interest rate no greater than three percent
- Repayment period of up to ten years to keep monthly costs low
- If you sell your home, your unpaid loan balance transfers to the new owner
- Realize actual energy savings (amount depends on the type of boiler/furnace you buy and the fuel used)

I urge you to consider the benefits of this program as a way to reduce your home heating costs.

The program is scheduled to begin on January 1, 2014. For more information after that date, visit www.energizeCT.com or call toll-free **1-877-WISE-USE** (947-3873).
